

12 8Ah lithium battery pack

Overview

What is a 12V lithium ion battery pack?

A 12V lithium ion battery pack is a battery pack made up of three or four lithium batteries connected in series and several lithium batteries connected in parallel. This configuration allows the capacity of a 12V lithium battery to be customized.

What is a 12V 9AH lithium battery used for?

A 12V 9Ah lithium battery is designed for deep cycle applications including fish finders, alarm systems, and UPS.

Are lithium Superpack batteries easy to install?

The Lithium SuperPack batteries are extremely easy to install, not needing any additional components. The internal switch will disconnect the battery in case of over discharge, over charge or high temperature. The Lithium SuperPack batteries can be connected in parallel. Series connection is not allowed. Need advice?
