

12 volt inverter production battery pack

Overview

What is a 12V battery inverter?

Inverters allow you to use 12V Dakota Lithium batteries to power household electronics that require 120V AC (the wall plug in your home). Rated at 1200VA and its RMS watts is 850, peak of 1000, this professional grade Victron inverter takes DC power (the power that comes from batteries or solar panels) and transforms it into AC power.
