

# 1500V energy storage container 5MWh

## Overview

---

What is a 5 MWh battery?

5+MWh capacity—optimized for utility scale application, ensuring peak shaving and grid stability. Features 314Ah LFP battery cells, 20ft standard container design, high energy density, and multi-level safety. High corrosion-resistant and compliant with global environmental standards.

What is CATL 5MWh enerD?

On August 23, the CATL 5MWh EnerD series liquid-cooled energy storage prefabricated cabin system took the lead in successfully realizing the worlds first mass production delivery. As the worlds leading provider of energy storage solutions.

What are the advantages of enerD series liquid-cooled energy storage prefabricated cabins?

Compared with the previous generation of products, the new EnerD series liquid-cooled energy storage prefabricated cabins save more than 20% of the floor area, reduce the construction work by 15%, and commission and operate Dimension costs have dropped by 10%, and energy density and performance have also been significantly improved.

## 1500V energy storage container 5MWh
