

345 Photovoltaic panel size

Overview

This panel is a 60 cell solar panel featuring a sleek, all-black design coupled with outstanding power output. Its design makes it ideal for residential and commercial rooftop systems. Strong 40mm robust frame increases durability and strength and is able to withhold a heavy snow load up to 5600 Pa and large hail.

American quality panels that guarantee the highest power output. PERC technology and 6 busbars drive 18.7% module efficiency. Positive tolerance of -0~ 3%.

The low thermal coefficient produces greater energy production at high operating temperatures. The module provides a high energy yield at low NOCT =.

Mission 345-Watt Solar Panel receives multiple quality checks throughout the manufacturing process and is subject to stringent quality and reliability testing. Mission.

Mission 345-watt Solar Panel goes with an industry-leading 25-year performance warranty independently backed by Powerguard's third-party insurance and a 12.

Measuring 21.5 inches in width, 41.2 inches in length, and 0.613 inches in thickness, this solar panel is relatively compact in size compared to other panels in its power class. Despite its modest dimensions, it weighs a substantial 43 pounds, underscoring its robust and durable construction.
