

# **5G base station situation in containers in the Middle East**

## Overview

---

What is 5G base station market report?

5G Base Station Market Report is Segmented by Type (Small Cell and Macro Cell), by End User (Commercial, Residential, Industrial, Government, Smart Cities, and Other End Users), and by Geography (North America, Europe, Asia Pacific, Latin America, Middle East and Africa).

Which segment dominates the 5G base station market in 2024?

The industrial segment maintains its dominance in the global 5G base station market, commanding approximately 27% market share in 2024. This significant market position is driven by the accelerating adoption of Industry 4.0 initiatives and the growing integration of IoT devices in manufacturing facilities.

How many 5G networks are there in the Middle East?

This includes eight in the Middle East and 10 in Africa. The first full commercial 5G mobile service in the MEA region was introduced by Etisalat in the United Arab Emirates (UAE) in May 2019, followed closely by its domestic rival Du the following month.

How many 5G base stations are there in China?

The market is witnessing significant developments in base station technology and deployment strategies. By September 2023, China had built 3.189 million 5G base stations, with 22.6 5G stations per 10,000 people, demonstrating the scale of infrastructure deployment possible.

What is the fastest growing segment in 5G base station market?

The 5G macro cell segment is emerging as the fastest-growing segment in the 5G base station market, projected to grow at approximately 40% during the forecast period 2024-2029.

What is Europe's 5G base station growth rate?

Europe has demonstrated remarkable progress in 5G base station deployment, with a substantial growth rate of approximately 38% from 2019 to 2024. The region's market development is characterized by strong governmental support and strategic initiatives across multiple countries, particularly in the United Kingdom, Germany, France, and Italy.

## 5G base station situation in containers in the Middle East
