

60-220 inverter

Overview

What types of inverters are available?

We have 220 VAC or 240V modified sine wave, pure sine wave and inverter/chargers. If you need help finding a 220 Volt or 240 Volt inverter, please don't hesitate to contact us today. 240V or 240VAC 60Hz Power Inverters are great for pumps, industrial kitchen appliances, washers, dryers etc.

What is a 240V power inverter used for?

240V or 240VAC 60Hz Power Inverters are great for pumps, industrial kitchen appliances, washers, dryers etc. We offer Free Shipping on most models!.

What is the best 240 volt inverter for a well pump?

Whether for a well pump or a 240 volt motor that needs back up power, the AIMS Power 5000 Watt 240VAC inverter is a great option. For over a decade, AIMS Power has offered top of the line off grid inverters and accessories for virtually any application.

Can a 5000 watt inverter run 240 volts?

The AIMS Power 5000 Watt inverter with 240 volts AC output is a great choice for an off grid well pump that requires 240VAC to operate. However, keep in mind that this inverter is not a "split phase" 240VAC; you will not be able to pull one leg off to create 120VAC.

Will my aims inverter work in April 2023?

My Aims inverter is still running strong for April 2023 + . This split phase inverter is capable of producing 110/220vac. It will work virtually anywhere in the world, with the ability to auto detect 50 or 60 hz. The built-in charger allows for you to use your existing grid power to maintain a charge on your batteries.
