

Algeria s regular photovoltaic panel construction manufacturer

Overview

Algerian holding Zergoun Green Energy has inaugurated a 200 MW solar module factory in southern Algeria. Located in the Sahara Desert province of Ouargla, the factory is equipped with lines provided by Spain's Mondragon Assembly and has an annual production capacity of 200 MW. Who makes solar panels in Algeria?

Among other operational solar module manufacturers in Algeria include French-Algerian company Aurés Solaire, and Algerian electronics manufacturer, Condor Electronics. Zergoun Green Energy (ZEG), has launched a PV module manufacturing factory in Ouargla, in the homonymous province of southern Algeria.

How much does solar power cost in Algeria?

Algeria's Hamdi Eurl won two 80 MW plants and domestic PV panel maker Zergoun, alongside Ozgun, secured 80 MW in Guerara. The 19 projects represent an investment of €1.8 billion (\$1.96 billion) and the solar power prices proposed by the bidders ranged from €0.54/W to €0.81/W, with an average price of €0.625/W.

Will Algeria become a hub for solar glass production?

Offering its companies a low electricity price of about DZD 4.68 (\$0.03)/kWh, Algeria envisions becoming a hub for solar glass production, both for its domestic market and for US manufacturers, to replace Asian markets affected by an import ban on their photovoltaic equipment.

Will Algeria's 'solar 1000 MW' project contribute to its solar energy programme?

Algeria's Minister of Energy Transition and Renewable Energies, Benattou Ziane, celebrated the launch of the facility saying it will contribute immensely to the country's solar energy programme called "Solar 1,000 MW". The North African country recently issued a tender for the procurement of 1GW of new solar energy capacity.

What is zergoun green energy doing in Algeria?

In order to meet the growing needs of the Algerian and African solar sector, Zergoun Green Energy has also created a joint venture with Greek company Elvan to set up a production plant for metal mounting structures in Ouargla to supply the Algerian, Greek and African markets.

How much energy does Algeria produce a year?

The country has an average of 3,000 hours of sunshine per year and global horizontal irradiation of almost 1,700 kWh/m²/year in the north and 2,263 kWh/m²/year in the south. Nevertheless, nearly 100% electrified Algeria generates 99% of its energy from domestic gas.
