

Algerian double-glass module manufacturer

Overview

How many solar panels are produced in Algeria?

Both factories will have a production capacity of 260 MWp of solar panels per year. A total of four solar panel production units will supply the Algerian and sub-regional market. At the same time, a factory is being built in Algeria for the production of solar panels and other equipment, notably the assembly structures for the modules.

Where will solar panels be made in Algiers?

According to Cerefe, the factory under construction in the industrial zone of Boukherana, near Chelghoum El Aid (400 km from Algiers), will be commissioned before the end of 2020. It belongs to Milltech which plans to supply 100 MWp of solar panels per year.

How can Algeria achieve its energy objectives?

Algeria is putting in place major means to achieve its energy objectives, notably the production of electricity from solar energy. According to the first annual report of the Commissariat for Renewable Energies and Energy Efficiency (Cerefe), two new factories for the production of solar panels will soon see the light of day in Algeria.

What is Zergoun Green Energy doing in Algeria?

In order to meet the growing needs of the Algerian and African solar sector, Zergoun Green Energy has also created a joint venture with Greek company Elvan to set up a production plant for metal mounting structures in Ouargla to supply the Algerian, Greek and African markets.
