

# **Andorra Electricity Company 5G base station**

## Overview

---

Will Andorra launch 5G?

Andorra is covered by 4G and we are not in a hurry to launch 5G in the Principality, says the CEO of Andorra Telecom, Jordi Nadal 06.04.2017 All Andorra news, Interview / business, economy, technologies, telecommunications, tourism.

Who owns Andorra Telecom?

The government is the owner of Andorra Telecom. The interaction between the government and Andorra Telecom is natural. Andorra Telecom bought a part of a Spanish telecom company. Please tell us more about it. We bought 2.7% of Yoigo (owned by MásMóvil). This is the 4th mobile operator in Spain. We invested 10.5 million euros.

Why is Andorra Telecom implementing a special mechanism?

A special mechanism has to be implemented to keep the rights of the consumers safe. According to Andorran law, Andorra Telecom has to provide 100 Mb per second to any household at the same price and the government has to approve the tariffs for the residential market and to strengthen the consumer's position.

What is a 5G base station?

5G base stations operate on various frequency bands, including sub-6 GHz and mmWave, to deliver ultra-low latency, high data throughput, and enhanced capacity. They support massive MIMO (Multiple Input Multiple Output) technology, enabling improved coverage and simultaneous connections for a large number of devices.

Does Andorra have free Wi-Fi?

All the main streets, ski stations of Grandvalira and Vallnord, and the majority of hotels as well as 94% of the shops in the main streets of Andorra are

covered by free wi-fi. So even though this is not perfect, it is very good.

How many international roaming agreements are there in Andorra?

That's why we have more than 200 international roaming agreements and special agreements with more than 74 operators from 38 different countries to ensure that retail prices are good enough to provide excellent customer service to customers in Andorra.
