

Angola Outdoor Power Assembly Company

Overview

Which countries supply power equipment to Angola?

In addition, European companies (Germany, Portugal) supply equipment to the energy sector. Portuguese, Brazilian, and Chinese construction companies generally lead in project construction. Electric power-related equipment (HTS 8411) exported to Angola in 2022, was valued at US\$ 14.8 million.

Will Angola and Namibia build a hydroelectric plant?

Namibia and Angola are set for a joint construction of the Baynes Dam hydroelectric plant with an installed capacity of 600 MW. The power production would be shared, 300 MW for each country; Power Africa is supporting the project. An additional connection in the north of Angola with the Democratic Republic of Congo is also being considered.

Why does Angola need more electric power?

Increasing electric power availability to diversify the economy and meet the increasing energy demand of a growing population is among the Angolan government's highest stated priorities.

What is Angola's energy mix?

Angola's current installed capacity is estimated at 5.7 GW but only 70 percent is in use. The country's current energy mix consists of 61.8 percent hydropower, 37.6 percent other fossil fuels and 0.6 percent hybrid (solar/fossil fuel).

What is Angola's largest hydroelectric complex?

Civil works, supply, assembly and commissioning of the electromechanical equipment of the largest Angolan hydroelectric complex, comprising a reservoir with 188 km² and a main plant with six turbines, totaling an installed capacity of 2,073 MW, enough to supply a city of 8 million inhabitants.

What type of transmission system does Angola have?

Angola's transmission infrastructure is made up of three separate major grid systems (northern, central, and southern), in addition to isolated grids in the east. The northern grid runs 400kv and 220 kv lines, and covers Luanda, Uige, Bengo, Zaire, Malange, Kwanza Norte, and Kwanza Sul provinces.
