Overview

How many EV charging stations are there in El Salvador?

Charge Up! El Salvador's Expanding Network of EV Stations. El Salvador is rapidly expanding its network of electric vehicle (EV) charging stations, with over 20 locations now open to the public. While most of these stations are concentrated in Greater San Salvador, the network is gradually reaching other areas of the country.

How many charging stations will AES El Salvador have in 2023?

AES El Salvador announced that by the end of 2023 it will offer 10 charging stations to electric vehicle users. The charging points will be installed in service stations, shopping malls, hotels, supermarkets, and will connect more than 325 kilometers.

Does El Salvador have an electric vehicle market?

Since entering the electromobility market in 2018, El Salvador has seen significant growth in recent years, thanks to the establishment of public charging stations. However, electric vehicle sales remain modest compared to traditional combustion vehicles.

What are the challenges in the implementation of electromobility in El Salvador?

Roberto Sandoval, AES El Salvador's General Manager of the Solutions Division, pointed out that one of the main challenges in the implementation of electromobility in the country is the coverage of charging points for electric vehicles with the support of Blink Charging. If playback doesn't begin shortly, try restarting your device.

What will AES El Salvador do for EV drivers?

AES El Salvador and its strategic partners will continue working together to install new charging points, connecting over 325 kilometers of routes and

providing EV drivers greater peace of mind for long-distance travel within the country.

Do EVs have a charging station?

For EV owners, the worry of finding a charging station during long trips is alleviated by the increasing availability of charging points. New electric engines offer a range of up to 400 kilometers, sufficient for a round trip between San Salvador and San Miguel.
