

Asia 88MWh Energy Storage Power Station Project

Overview

What is Asia's largest battery energy storage system?

Billed as Asia's largest battery energy storage system for grid stabilization purposes, the system has a power output of 978 MW and a storage capacity of 889 MWh. The ceremony marking the completion of construction was held on Thursday, September 27, at the 154 kV Bubuk Substation in Miryang.

What is Singapore's biggest battery storage project?

Singapore has surpassed its 2025 energy storage deployment target three years early, with the official opening of the biggest battery storage project in Southeast Asia. The opening was hosted by the 200MW/285MWh battery energy storage system (BESS) project's developer Sembcorp, together with Singapore's Energy Market Authority (EMA).

What is Energy Storage Summit Asia?

Energy-Storage.news' publisher Solar Media will host the 1st Energy Storage Summit Asia, 11-12 July 2023 in Singapore. The event will help give clarity on this nascent, yet quickly growing market, bringing together a community of credible independent generators, policymakers, banks, funds, off-takers and technology providers.
