

Australia Lithium Energy Storage Power Supply Procurement Project

Overview

Are battery energy storage projects getting funding from Australian Government?

Six large-scale battery energy storage projects in South Australia and Victoria have been earmarked to receive funding from the Australian government's Capacity Investment Scheme.

Will Narada power supply lithium battery energy storage systems?

October 12, 2024: Lead and lithium battery maker Narada Power has signed a procurement contract with a Western Australian energy storage project company to supply lithium battery energy storage systems.

What is NSW's next Li-ion battery storage tender?

While, as RWE pointed out, the project will be Australia's first-ever 8-hour duration Li-ion battery storage project, NSW has just launched its next tender for LDES. Tender Round 5 under the NSW Electricity Infrastructure Roadmap opened last week (22 May).

Will Australia's biggest battery project win an underwriting agreement?

One of the biggest battery projects under development in Australia – and one of the first eight-hour batteries to win an underwriting agreement through the New South Wales government's Electricity Infrastructure Roadmap – has locked in a supplier.

Where are Australia's lithium-ion batteries located?

In the state's mid-north, the 60 MW Clements Gap lithium-ion battery, operated by Pacific Blue, is located at the Clements Gap Wind Farm, while at Canowie, 210 kilometres north of Adelaide, Energy Australia's 50 MW Hallett lithium-ion battery will have a discharge capacity of 200 MWh, able to power 81,000 homes and small businesses for four hours.

Which battery project won ltesa tenders?

The Richmond Valley BESS remains the biggest battery project winner of LTESA tenders held by the NSW government, with the latest round taking in the 125 MW, 1,000 MWh Stoney Creek battery by Enervest, and the 100 MW, 800 MWh Griffith battery by Macquarie Group battery offshoot Eku Energy.
