

# **Austria photovoltaic power station inverter manufacturer**

## Overview

---

Who manufactures photovoltaic modules in Austria?

Currently 4 manufacturers of PV Modules are operational in Austria: Kioto Photovoltaics GmbH, Energetica-Photovoltaic industries, DAS Energy Ltd. as well as Ertex-Solartechnik GmbH; Sunplugged, as a start-up, develops flexible photovoltaic modules for integration into building envelopes, devices and vehicles.

Who makes inverters in Austria?

The only inverter producer in Austria is Fronius International GmbH. Beside inverters, Fronius offers a wide spectrum of PV-Energy management solutions. SolOcean GmbH is a technology company and deals with the development and marketing of an innovative system for generating electrical energy using photovoltaics on water surfaces.

What is the PV market like in Austria in 2022?

The Austrian PV market is still dominated by roof top installations, but 2022 for the first time a significant number of larger ground mounted PV systems were reported; nevertheless, more than 83,7% are still roof top, 1,3 % are building integrated (BIPV facade and roof) and 14,9% percent are ground mounted PV systems.

Who is responsible for the commissioning of PV systems in Austria?

In Austria, the most important decisions regarding the commissioning of PV systems are the responsibility of the federal states. Even if the national targets are now ambitious - 21 TWh by 2030 and 41 TWh by 2040 - these must now be realised at state level.

How many natural gas power plants are there in Austria?

There are currently 16 natural gas power plants in Austria and 3,4 GW power made by pump hydro storages powerplants. E-Control is the regulatory

authority in Austria responsible for the electricity and gas industry. The TSO and the larger DSO's are mainly owned by the federal and regional governments.

What is the IEA photovoltaic power systems programme?

The IEA Photovoltaic Power Systems Programme (IEA PVPS) is one of the TCP's within the IEA and was established in 1993. The mission of the programme is to "enhance the international collaborative efforts which facilitate the role of photovoltaic solar energy as a cornerstone in the transition to sustainable energy systems."
