

BESS Portable Power Bank

Overview

Why fumble around for a charging cable when you can rest your phone on a wireless charging pad?

Whether you're an Android user or an iPhone fan, check out our roundups of the best wireless chargers and the best MagSafe chargersto help you cut the cord. Ben Moore and Steven Winkelman contributed to.

These days, "small" portable batteries have a capacity of around 5,000mAh, which means they easily fit into your pocket and still have.

Generally speaking, you charge the battery itself via USB-C (input). Speeds differ depending on the battery you choose. Many batteries also still include a standard USB-A port (output). This is for plugging in USB-A-to-Lightning or USB-A-to-USB-C cables for.

Another factor to consider is how quickly a power bank can charge your device. Battery output is measured in voltage and amperage. Amperage (or current) is the amount of electricity.

Pass-through charging is another feature to consider; with it, you can charge your device and a portable power bank simultaneously. That's convenient if both your phone and backup battery are running on empty. You shouldn't encounter any safety.

What is the best power bank?

My pick for the best power bank overall goes to the Anker PowerCore 10,000 mAh Redux for its portability, quality construction, and the fact that it has USB-C and USB-A ports, which means it caters to both old and new devices. While it's my favorite, there are plenty of other options with different price points, features, and brands in mind.

What are the best wireless portable chargers & power banks?

For Qi-compatible devices, we also have a separate guide to the best wireless portable chargers and power banks. The best replacement for your original charger is the Nekteck 60W USB-C GaN Charger. It's cheaper and smaller but

just as powerful and reliable.

Do you need a portable power bank?

While most portable power banks are great for keeping your smartphone or tablet topped up when you are out and about for the day, if you truly want to go off-grid you need something beefier. You need the ChargeTech 124,800mAh portable power station. Regular readers will know that I have a thing for portable power banks.
