Base station for communication engineering

[What is a Base Station in Telecommunications?](#)

Discover the role and functionality of a base station in telecommunications networks. Learn how these critical components manage communication between mobile devices and the network, ...

smart millimeter-wave base station for 6G application based on

For illustrating the potential of the proposed prototype in the application of a smart 6G base station, we take the proposed system to assist a millimeter-wave base station and ...

Optimizing the ultra-dense 5G base stations in urban outdoor ...

The developed model can facilitate the rollout of 5G technology. Due to the high propagation loss and blockage-sensitive characteristics of millimeter waves (mmWaves), ...

Securing UAV Flying Base Station for Mobile Networking: A ...

A flying base station based on an unmanned aerial vehicle (UAV) uses its mobility to extend its connectivity coverage and improve its

communication channel quality to achieve ...

Design of high gain base station antenna array for mm-wave ...

Millimeter wave (mm-Wave) wireless communication systems require high gain antennas to overcome path loss effects and thereby enhance system coverage. This paper ...
