

Belgian charging station energy storage subsidy policy

Overview

How can government support the deployment of charging stations in Belgium?

Sander Hereijgers, CEO of Pluginvest (Photo: Roel Hendrickx). He further asserts: “Governmental support can also be provided by streamlining the permitting process.” As in other European nations, the deployment of charging stations in Belgium faces bottlenecks due to lengthy approval times.

Does Belgium have a battery subsidy scheme?

However, Belgium does participate in a subsidy scheme approved by the European Commission, providing grants as part of a €2.9 billion fund for pan-European research and innovation projects along the battery value chain, including recycling and sustainability.

What incentives are available for EVs in Belgium?

This article, part of a three-part series on the charging infrastructure for EVs in Belgium, focuses on the key subsidies and fiscal incentives concerning EVs in Belgium. (1) Manufacturing vehicles Belgium offers no specific incentives for manufacturing EVs.

What is the energy storage project in Belgium?

The main energy storage project in Belgium is the construction and operation of an offshore “energy atoll” (essentially a manmade offshore pumped-storage facility), for which the Electricity Act has been modified in 2014 (see below), in order to support offshore wind-generated electricity production.

Are charging stations a bottleneck in Belgium?

As in other European nations, the deployment of charging stations in Belgium faces bottlenecks due to lengthy approval times. The installation of new high-voltage cabins, charging stations, and canopies necessitates obtaining authorisations—a process that, in many cases, can be significantly time-consuming.

Are EV charging points tax-free in Belgium?

Grants towards home EV charging point installation Between 1 September 2021 and 31 August 2024, owners and tenants of a property can benefit from a tax reduction on the investment when purchasing and installing charging points. Belgium has tapered its tax reductions in this respect: in 2024 there will be a 15% tax reduction.
