

# **Black Mountain Lithium Battery Energy Storage Company**

## Overview

---

Who is Black Mountain Energy Storage?

Leveraging cumulative decades of electric market experience, Black Mountain Energy Storage develops powerful, flexible, and strategically placed battery energy storage projects to foster a resilient electric grid. BMES' quickly expanding team of energy experts are fast actors in pipeline development of utility-scale energy storage solutions.

Does Black Mountain own a battery storage system?

It is not clear if Black Mountain intends to own or sell the battery storage system, which it has named American Pharaoh BESS. It has developed and sold 15 battery storage sites, mostly in Texas, to utilities or investors and has more than 30 projects in the pipeline, according to its website.

Did UBS acquire Black Mountain Energy Storage?

UBS Asset Management today announced the acquisition of five standalone, development-stage energy storage projects in Texas from Black Mountain Energy Storage. Read more. Cypress Creek Renewables has added 400MW/600MWh to its storage portfolio after acquiring four Texas standalone energy storage projects from Black Mountain Energy Storage.

How much money has Black Mountain invested?

Since 2007, Black Mountain has built several companies, collectively evaluated >\$25 billion of exploration and production acquisition, and successfully invested over \$900 million in rewarding ventures. When you make bold steps or shift your perception, you gain a fresh outlook.

How would a battery energy storage system work?

The battery energy storage system, or BESS, would draw electricity from We Energies' nearby Granville sub-station and store it for when it's needed during times of peak electric demand, said Jackson Hughes, Black Mountain Energy

Storage's manager of development.
