

# **Bolivia Energy Storage Battery Management Module**

## Overview

---

Where is the largest lithium-ion battery storage system in Bolivia?

The site is in the municipality of Baures, Bolivia. Image: Cegasa. The largest lithium-ion battery storage system in Bolivia is nearing completion at a co-located solar PV site, with project partners including Jinko, SMA and battery storage provider Cegasa.

Where can a solar power system be used in Bolivia?

The system is designed for operating in the region of the Bolivian rural highlands, Colquencha's municipality. In the case of the Bolivian remote highlands, off-grid PV-battery systems are often used since the grid is too expensive to expand.

Can Bolivia become a global powerhouse in electric micro-mobility?

MOBI CEO Ariel Revollo: "Latin America has the capacity to become a global powerhouse in electric micro-mobility, and we believe Bolivia can be the leader of this transition."

How does access to electricity affect rural communities in Bolivia?

During the last two decades, access to electricity has had deep impacts on the wellbeing of rural families through significant socio-economic development in Bolivia. However, 34% of the total rural population in the country still have no access to electricity.

Can Bolivia become a green energy superpower?

The partnership between MOBI and EnergyX highlights the thriving innovation environment in Bolivia, and will take the country one step closer to becoming a green energy superpower.

## Bolivia Energy Storage Battery Management Module
