What is the telecommunications system in Bolivia?

Telecommunications in Bolivia includes radio, television, fixed and mobile telephones, and the Internet. Radio broadcast stations: AM 171, FM 73, shortwave 77 (1999). Television broadcast stations: 48 (1997). Bolivia has a large number of radio and TV stations broadcasting with private media outlets dominating.

What happened to the Bolivian national telecommunications company?

The Bolivian National Telecommunications Company was privatized in 1995 but re-nationalized in 2007; the primary trunk system is being expanded and employs digital microwave radio relay; some areas are served by fiber-optic cable; system operations, reliability, and coverage have steadily improved.

Does Bolivia have Internet access?

By 2011, the lack of progress in extending internet access had reached a critical point. Based on ENTEL data, Bolivia ranked lowest in Latin America for internet penetration, with just 8% of its approximately 10 million people online. This drove a renewed push to ensure all citizens could access basic telecommunications, including the internet.
