Does the US export telecommunication equipment to Botswana?

U.S. exports of telecommunication equipment to Botswana have increased significantly over the last several years due to a \$20 million investment from a satellite communications provider. This figure does not reflect those U.S. products exported to South Africa and imported to Botswana by South African distributors.

Why is reprocessing shipping containers important in Botswana?

With an increase in the uses for shipping containers, supply has increased, leading to a significant reduction in container prices in Botswana. By reprocessing shipping containers, they can be architecturally modified to serve as spacious and convenient office buildings.

How much does Botswana data cost?

In 2019, the Botswana Communications Regulatory Authority (BOCRA) engaged with operators and agreed to cut data prices by up to 46 percent making data prices competitive in the region. Prices for a prepaid 2 GB data package with a 30-day validity by a 3G or 4G network provider with the largest market share fell from \$8.16 in 2019 to \$5.93 in 2020.

Why are container prices decreasing in Botswana?

Container prices in Botswana have decreased significantly as the supply of containers increased to meet demands, especially since containers are used for more creative purposes. Even though these shipping containers provide a

temporary recreational atmosphere, the containers can easily be revamped for other uses.

Why is reprocessing inter-modal containers so popular in Botswana?

By reprocessing inter-modal containers into bistros and/or open theatres have become very trendy in many places around the world. Container prices in Botswana have decreased significantly as the supply of containers increased to meet demands, especially since containers are used for more creative purposes.
