

Bulgarian outdoor energy storage battery

Overview

The new BESS has a capacity of 124 MW and 496.2 MWh, making it the largest in the EU. The facility consists of 111 battery containers and was developed by Advance Green Energy. It aims to stabilize the energy grid and ensure price predictability for consumers. What is the largest battery storage system in Bulgaria?

EU's largest battery storage system inaugurated in Bulgaria, ceenergynews. Largest battery storage system in Balkans commissioned in Bulgaria, Balkan Green Energy News. Bulgaria opens EU's largest battery energy storage facility, bne IntelliNews. Bulgaria inaugurates 496 MWh battery system – pv magazine International, pv magazine International.

What can boost battery storage in Bulgaria?

Another development that can boost battery storage in Bulgaria is a recent update of national legislation to include battery energy storage systems as a component of the grid.

How much battery energy Storge capacity does Bulgaria have?

Bulgaria has installed between 40 MWh and 50 MWh of battery energy storge capacity to date. However, new national legislation as well as funds provided through the European Union's Recovery and Resilience Facility (RRF) could add another 1 GWh of storage capacity over the next two years.

How much does a battery system cost in Bulgaria?

Rystad Energy's analysis has set the battery system costs at a flat €60 per MWh. Despite this opportunity, the conference argued that until recently energy storage was not a big thing in Bulgaria and this is due to Bulgaria's plentiful operational coal and nuclear capacities.

How many battery containers are there in Bulgaria?

The facility consists of 111 battery containers and was developed by Advance

Green Energy. It aims to stabilize the energy grid and ensure price predictability for consumers. The project is part of Bulgaria's broader goal to achieve 10 GWh of battery storage capacity by next year.

Is there a transition to energy storage in Bulgaria?

"In fact, we are already seeing the transition to energy storage in Bulgaria, mainly through the development of battery storage facilities behind-themeter," Alexander Rangelov, CEO of the International Power Supply (IPS) Group, an energy storage manufacturer headquartered in Sofia, told pv magazine.
