

Capacity of Belgian solar lithium battery array

Overview

Engie has announced a plan to deploy around 1.5 GWh of battery storage capacity in Belgium. The French energy company said it will connect three large-scale batteries to the high-voltage grid at . The 480-module lithium BESS in Bastogne was built with Fluence's Gridstack products. Image: BSTOR.Is totalenergies launching a second battery storage project in Belgium?

On the occasion of Belgian Energy Minister Tinne Van der Straeten's visit to TotalEnergies' Antwerp refinery battery storage project, the company announced the development of a second similar project in Belgium. The new project will be located at TotalEnergies' depot in Feluy, featuring a power rating of 25 MW and a capacity of 75 MWh.

How much battery storage capacity does Engie have in Europe?

ENGIE reaches 500 MW of battery storage capacity in Europe, either installed, under construction or under development. ENGIE's BESS project for installed capacity of 100 MW has been selected in the 4th Capacity Remuneration Mechanism (CRM) auction in Belgium.

What is the largest battery installation in Europe?

After commissioning four battery parks in France offering total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe.

Where are battery recharging points located in Belgium?

The company operates recharging points in major cities such as Antwerp, Brussels, and Ghent. A new 25 MW, 75 MWh battery storage project in Feluy will boost Belgium's storage capacity to 50 MW, 150 MWh, aiding grid resilience and renewable energy growth. Completion expected by end of 2025.

What is Saft's largest battery installation in Europe?

total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe. The batteries, 40 Intensium Max High Energy lithium-ion containers, will be supplied by Saft, the battery subsidiary by the end of 2024, will help meet the needs of the European and Belgian high-voltage transmission network 2.

What is the largest energy storage project in Europe?

A first flagship energy storage project in Belgium After commissioning four battery parks in France offering total energy storage capacity of 130 MWh, this project will be the Company's largest battery installation in Europe.
