

Cape Verde Photovoltaic and Energy Storage Rights

Overview

Does Cape Verde have access to electricity?

Cape Verde has achieved a national coverage of 95 % in accessing electricity as each island has its own local power station running on petroleum products and its own electrical grid.

What is the Cabo Verde national energy policy?

In 2008, the Council of Ministers approved the Cabo Verde National Energy Policy which sets out the overarching vision of achieving long-term independence from fossil fuels by promoting renewable energies and improving energy efficiency.

Will Cabo Verde reduce its dependence on imported fossil fuels?

The government of Cabo Verde has launched an ambitious plan to further reduce the country's dependence on imported fossil fuels.

Cape Verde Photovoltaic and Energy Storage Rights

[Cape Verde Energy Storage Photovoltaic Enterprise](#)

In Cape Verde, the Cabeolica company has obtained approval from the authorities to expand its wind energy production capacity on the island of Santiago. The company will also invest in ...
