

China-Africa energy storage lithium battery price

Overview

How much does a battery cost in China?

On a regional basis, average battery pack prices were lowest in China, at \$94/kWh. Packs in the US and Europe were 31% and 48% higher, reflecting the relative immaturity of these markets, as well as higher production costs and lower volumes.

Why are battery prices so low in China?

Companies in China faced fierce competition this year. These conditions resulted in falling battery prices and lower battery margins, forcing many battery manufacturers to enter new markets, including energy storage, while also eyeing overseas markets willing to pay more for batteries. The industry has also benefitted from low raw material prices.

How much does stationary energy storage cost in China?

And again, crazy numbers coming out of China in terms of stationary energy storage, costs, not just at the cell level but at the system level. At a system level for turnkey system, you're looking at something like \$135 per kilowatt-hour. So again, crazy low considering that 18 months ago the average price of a cell was about \$135 per kilowatt-hour.

How much does a battery electric car cost in China?

Prices for battery electric vehicles (BEVs) came in at \$97/kWh, crossing below the \$100/kWh threshold for the first time. While EVs have reached price parity in China, they are still more expensive than comparable combustion cars in many markets.

How much does a storage system cost in China?

Now, you can get an entire storage system in China. But again, even those spot markets in China getting to 35, sorry, the \$50 per kilowatt-hour, it's low in China. Some people can access that. That's not a price that's necessarily

going to be reflected if you're a stationary storage developer in Europe or the US.

How much does a cell cost in China?

So again, crazy low considering that 18 months ago the average price of a cell was about \$135 per kilowatt-hour. Now, you can get an entire storage system in China. But again, even those spot markets in China getting to 35, sorry, the \$50 per kilowatt-hour, it's low in China. Some people can access that.
