

Comoros communication base station power equipment

Overview

The project has been developed by Qatar University and Politecnico di Torino, under the supervision of prof. Mazen Hasna and prof. Daniele Trincherro, with a major participation of local actors (Comorian Government, NRTIC, University of the Comoros).

In large part thanks to international aid programs, Moroni has international telecommunications service. Telephone service, however, is largely limited to the islands' few towns.

In October 2011 the State of Qatar launched a special program for the construction of a to interconnect the three islands of the archipelago, by.

Telephones - main lines in use: 5,000 (1995)Telephones - mobile cellular: 0 (1995)Telephone system: sparse system of radio relay and HF radiotelephone communication stations domestic: HF.
