

# **Construction of Libya s industrial and commercial energy storage project**

## Overview

---

Why is Libya a major oil producer?

As a member of the Organisation of the Petroleum Exporting Countries and 48.4bn barrels of proven crude oil reserves – the most in Africa – and 1.5trn cu metres of proven natural gas reserves, Libya is a significant player in the regional and global hydrocarbons sector. The state-run National Oil Corporation (NOC) is responsible for.

Is Misrata poised for significant growth as Libya's commercial and industrial centre?

Driven by these trends, Misrata's construction sector is poised for significant growth as Libya's commercial and industrial centre. The infrastructure pillar of Ihya Libya Vision 2030 outlines key objectives that include evaluating existing infrastructure developments to ensure that they align with national priorities.

Does Libya store personal data?

It does not store any personal data. As a member of the Organisation of the Petroleum Exporting Countries and 48.4bn barrels of proven crude oil reserves – the most in Africa – and 1.5trn cu metres of proven natural gas reserves, Libya is a significant player in the regional and global hydrocarbons sector.
