

Construction of US home photovoltaic energy storage projects

Overview

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.

SEIA makes major solar project data available to the public through the map below. SEIA members have exclusive access to the list as a sortable, searchable MS Excel file that is.

SEIA does not guarantee that every identified project will be built. Like any other industry, market conditions may impact project economics and timelines. SEIA will remove a project if it is publicly announced that it has been canceled. SEIA actively.

Construction of US home photovoltaic energy storage projects

Desert Power: A Deep Dive into the Massive Solar + Storage Project

Gemini is a 690-MWac/966-MWdc solar photovoltaic (PV) array and a 380-MW/1,416-MWh battery storage project. It was the largest single project of its kind in the U.S. ...
