

# Container power house appearance

## Overview

---

Can containerhouse supply electrical only?

Containerhouse can supply with house electrical only, or even install and wire customer-supplied equipment. This is a custom built 20ft container, equipped with an exterior mounted 1 ton AC unit to keep both equipment and personnel cool.

What's in a 20ft container?

This is a custom built 20ft container, equipped with an exterior mounted 1 ton AC unit to keep both equipment and personnel cool. It also has lighting & receptacles, aluminum cable ladder trays, a 40u grounded server rack, grounding bus bar, personnel access door, custom cable penetrations, and fire rated communications backboards.

What is E-house (prefabricated electrical room) container?

E-House (prefabricated electrical room) Container is a prefabricated walk-in modular steel structure outdoor box that can accommodate medium voltage (MV) and low voltage (LV) switchgear and auxiliary equipment. It is often called PowerHouse or Power Distribution Center.

Can containerhouse modify ISO shipping containers?

Containerhouse can modify ISO shipping containers (shorten, widen, even heighten) for MCCs and other electrical equipment at a fraction of the cost of traditional buildings. This container is more than tall enough, but even high-cube containers (9'6" O.D.) are sufficient for standard electrical cabinets.
