

Containerized power generation customization

Overview

What are containerized generator / packaged container and enclosure options?

Containerized generator / Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

What is a 40 ft containerized generator set?

Originally launched for limited markets in 2021, the 40-ft containerized generator sets were engineered for easy transportation, simple installation and are stackable, offering up to 34% space utilization savings over traditional build designs.

Why do you need a containerized generator enclosure?

Our containerized generator enclosures offer unparalleled flexibility, durability, and convenience, making them the ideal choice for various industries and applications. Read on to discover why BMarko Structures is your go-to partner for all your containerized generator enclosure needs. Fill Out Our Contact Form Below To Get Started!.

What is a containerized power module?

Fueled by natural gas, the power module is dedicated to the production of electrical energy. Containerized power module with a power output of 3MW.

Plymouth, UK. Flexible generation power plant to balance the local electricity network in an area with growing demand. 2 containerized power modules with a combined power of 5 MW. Yeovil, UK.

Why do you need a pre-packaged generator?

Pre-packaged containers and enclosures can simplify and expedite installation time, provide sound attenuation and personnel protection inside buildings, and provide weather protection for outside installations. Unified Power offers containerized generator sets with CHP and Emission control system.
