

Czech multicrystalline photovoltaic module prices

Overview

How much does a photovoltaic panel cost?

Mainstream Photovoltaic Panels: Average price of €0.10/Wp, down 9.1% month-on-month. Low-Cost Photovoltaic Modules: Average price of €0.060/Wp, a decrease of 7.7% compared to the previous month. These figures underscore the significant pressures in the photovoltaic market, as price reductions strain margins to unprecedented levels.

How much does a photovoltaic module cost?

Mainstream Modules: Average price of €0.11/Wp, stable compared to September but 21.4% lower than January 2024. Low-Cost Modules: Average price of €0.065/Wp, a 7.1% decrease from September and 27.8% from January 2024. These trends are exerting mounting pressure on the photovoltaic sector.

What are Targray's high-efficiency multicrystalline solar modules?

Targray's portfolio of high-efficiency multicrystalline solar modules is built to provide EPCs, installers, contractors and solar PV developers with reliable, cost-effective material options for their commercial and utility-scale solar energy projects.

How efficient are photovoltaic modules in 2025?

But let's take a closer look at the figures recorded in January 2025: Photovoltaic modules with monocrystalline or bifacial HJT cells, N-type/TOPCon or xBC (Back Contact) and their combinations, with efficiencies above 22.5%.

Czech multicrystalline photovoltaic module prices

[Topcon solar cells vs Perc solar cells: a complete guide](#)

Topcon Solar Panel TOPCon, "Tunnel Oxide Passivated Contact," represents an innovative leap in solar cell technology. This cutting-edge technology is making waves in the ...
