

# **Danish Solar Photovoltaic Power Generation Company**

## Overview

---

How much solar power does Denmark have?

Solar power in Denmark amounts to 4,208 MW of grid-connected PV capacity at the end of March 2025, and contributes to a government target to use 100% renewable electricity by 2030 and 100% renewable energy by 2050. Solar power produced 9.3% of Danish electricity generation in 2023, the highest share in the Nordic countries.

How many new PV installations are there in Denmark?

In 2013 PV deployment reached 216 MW of new installations, down 32 percent from the previous year. 2012 In 2012, new photovoltaic installations had surged to unprecedented levels in Denmark.

What makes Danish Renewables a good business?

We believe that making renewable energy projects that are good for both People, Planet and Profit is good business, and we love doing it. Danish Renewables develops photovoltaic projects throughout the world, and this is what we do most.

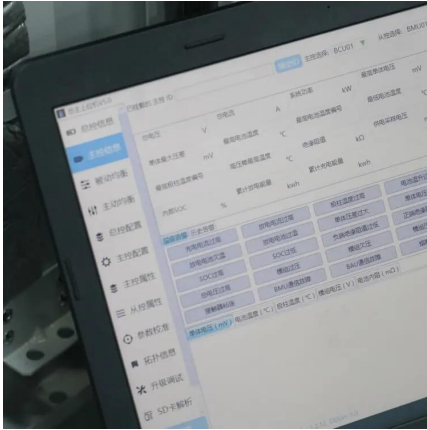

What is the most beautiful PV system in Copenhagen?

UN city complex, hailed as a Star in Copenhagen's harbor was completed in 2014. We're proud to deliver the PV systems installed on the top of building. This project was awarded at the Intersolar 2014 as "the most beautiful PV system since 2002".
