

# Does the government still support solar photovoltaic panels

## Overview

---

The 30% federal solar tax credit ends after December 31, 2025, and missing the deadline could add thousands to the cost of your home solar system. According to SolarReviews data, you can expect to pay \$23,840 for a typical 8-kW solar installation. Does the US government buy solar panels?

There is no such program. The U.S. government does not buy solar panels for American homeowners, according to the U.S. Department of Energy. Samah Shaiq, a Department of Energy spokesperson, directed USA TODAY to an article the agency published regarding inaccurate claims about free government solar panel offers.

How much does the US government spend on solar?

The U.S. government is spending \$7 billion on solar for low-income homes. Solar energy can reduce climate pollution and electric bills. The U.S. government will soon start giving out \$7 billion in grants for solar programs for low-income homes.

Are government solar panels free?

Samah Shaiq, a Department of Energy spokesperson, directed USA TODAY to an article the agency published regarding inaccurate claims about free government solar panel offers. "The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested," reads the article.

What is the \$7 billion solar for all program?

Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

Can you get a tax credit if you buy solar panels?

"The federal government does not have any programs that install solar panels on the homes of Americans for free," Jones-Albertus wrote. "A 30% tax credit is available to those who purchase a solar energy system."

Are there grants & funding options for solar energy in 2025?

Luckily, the U.S. government has your back. Whether you're a low-income homeowner or a rural resident, there are plenty of grants and funding options in 2025 to make solar energy accessible, affordable, and efficient.
