

# Does the solar cell cabinet include batteries

## Overview

---

The photovoltaic energy storage cabinet acts as the brain and battery bank rolled into one. Recent data from BloombergNEF shows systems with optimized storage achieve 40% higher efficiency. Now that's what I call a power move! Can a pwrCell Battery Cabinet be connected to a single inverter?

If more power is needed, we've got you covered; multiple PWRcell battery cabinets can be connected to a single PWRcell inverter for up to 36kWh of storage capacity and 11.5 kW continuous backup power. With the optional PWRview app, easily keep tabs on your energy consumption, monitor your battery usage, and track your savings!.

What is a pwrCell solar & battery storage system?

A PWRcell Solar + Battery Storage system has all the power and capacity you need, enough to save money on energy bills and keep the whole home powered when the grid goes down. PWRcell goes above and beyond the competition with up to 10kW of continuous backup power and cohesive load management for further protection.

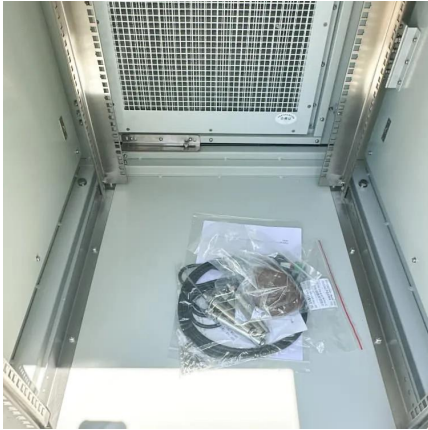

How many battery modules can a pwrCell provide?

The PWRcell can also be configured to meet any budget or lifestyle so you don't pay for more than you need: with as few as 3 battery modules for up to 9 kWh of capacity and 4.5 kW output, all the way up to our 6-module configuration providing up to 18kWh of capacity and 10 kW output.
