

EU Microinverter Quotes

Overview

What drives the Europe solar microinverter market?

The Europe solar microinverter market is primarily driven by the growing number of solar power plants in the region. The increasing efforts by the European Commission to switch to renewable energy sources instead of fossil fuels are also propelling the market growth.

What is the outlook for the Europe solar microinverter market?

The Europe solar microinverter market exhibited robust growth during 2015-2020. Looking forward, IMARC Group expects the market to continue its robust growth during 2021-2026.

How big is the microinverter market?

The three phase segment is anticipated to cross USD 800 million by 2034. The microinverter market size crossed USD 2.9 billion in 2024 and is estimated to grow at a CAGR of 10.6% from 2025 to 2034, driven by rising demand for plug-and-play solar systems.

How will the European microinverter market grow in 2025?

The European microinverter market will grow at a CAGR of over 12.4% between 2025 and 2034. Rising investments in distributed solar generation, supportive net metering policies, and growing emphasis on energy security are expected to foster microinverter adoption.

Why is the micro inverter market growing?

The market is experiencing steady growth, driven by the rising adoption of rooftop solar systems and the increasing emphasis on maximizing energy efficiency. North America held the largest revenue share of 37.74% in the global micro inverter market. The micro inverter market in the U.S. is experiencing strong momentum.

Who are the leading companies in the micro inverter market?

Some key players operating in the market are Enphase, Darfon Electronics Corporation, Deye Inverter, Sparq Systems, Fimer Group, Solis Solar, Tata Power Solar, and others. The following are the leading companies in the micro inverter market. These companies collectively hold the largest market share and dictate industry trends.
