

Eastern European lead-acid energy storage battery companies

Overview

Why is energy storage important in Europe?

In Europe, there is a growing consensus amongst policymakers that energy storage is crucial to securing affordable and low carbon energy. In May 2022, European Union launched their REPowerEU plan, a part of the European Green Deal, which mandates that 45% of Europe's energy generation needs to come from renewable sources by 2030.

What is e3/dc battery energy storage?

E3/DC is a leading German brand in lithium-ion battery energy storage, known for its integrated systems that enhance energy independence. Originally focused on automotive energy storage, the company was established in 2010 as a spin-off from Wilhelm Karmann GmbH.

Why should you choose a lead-acid battery?

Building on 30+ years of experience in industry-leading production, our lead-acid batteries deliver excellent performance, reliability, and long service life. Use of automated technology in (double casting, COS, jar formation). In-house production of red lead and 100% weight control of positive plates.
