

Egypt photovoltaic base station container installation

Overview

Where can solar power be developed in Egypt?

Utility-scale PV development has, thus far, clustered around Aswan in the south of the country, where solar resources are strongest and there is plenty of land for development. The biggest chunk of Egyptian solar capacity is provided by the Benban project, which lies 50 km from Aswan and is one of the world's biggest PV sites.

What is the growth rate of Egypt solar photovoltaic (PV) market?

The Egypt Solar Photovoltaic (PV) Market is growing at a CAGR of 9.05% over the next 5 years. Egyptian Electricity Holding Company, KarmSolar, Infinity Solar, Cairo Solar, Scatec ASA are the major companies operating in Egypt Solar Photovoltaic (PV) Market.

Who are the key players in Egypt solar photovoltaic (PV) market?

The Egypt Solar Photovoltaic (PV) market is moderately fragmented. The key market players (not in particular order) include Egyptian Electricity Holding Company, KarmSolar, Infinity Solar, Cairo Solar, and Scatec ASA. Need More Details on Market Players and Competitors?

.

Will Egypt's feed-in-tariff scheme boost solar PV capacity by 2027?

Renewable energy in the country increased significantly and reached a capacity of 6.3 GW in 2022. In 2014, Egypt's adoption of the feed-in-tariff (FiT) scheme to promote solar PV attracted international attention. Industry experts consider Egypt's FiT scheme to significantly boost Egypt's ambitious 2800 MW solar PV capacity target by 2027.

Will Egypt's FIT scheme boost its 2800 MW solar PV capacity?

Industry experts consider Egypt's FiT scheme to significantly boost Egypt's

ambitious 2800 MW solar PV capacity target by 2027. Besides the supportive government policies for utility-size solar power projects, the government also initiated several initiatives for small-scale distributed solar PV.

What is the Egypt PV project?

The Egypt PV project is implemented by the Industrial Modernization Center (IMC) in cooperation with the United Nations Development Program (UNDP) and funded by the Global Environment Facility (GEF). In January 2023, AMEA Power announced to start the construction of a 560 MW Abydos Solar Plant in Kom Ombo, Egypt.
