

Energy storage battery project in Cork Ireland

Overview

ESB, Ireland's foremost energy company since its establishment in 1927, has opened its latest major battery plant at its Aghada site in Co Cork which will add 150MW (300MWh) of fast-acting energy storage to help provide grid stability and deliver more renewable power onto Ireland's electricity system. What will ESB's new battery plant do for Ireland?

Friday, 15th November 2024 Cork, Ireland ESB has today opened its latest major battery plant at its Aghada site in Co Cork which will add 150MW (300MWh) of fast-acting energy storage to help provide grid stability and deliver more renewable power onto Ireland's electricity system.

Is ESB launching a battery energy storage system in Dublin?

The battery energy storage system (BESS) is the latest in a pipeline of projects at sites in Dublin and Cork as part of a €300m technology investment by ESB. The State-owned company launched its first BESS site, a 19MW project also at Aghada in 2022, and opened a 75MW project at its Poolbeg Energy Hub in Dublin earlier this year.

What is ESB's new battery energy storage system?

ESB has opened a major battery plant at its Aghada site in Co Cork, adding 150MW in energy storage to help provide grid stability and deliver more renewable power. The battery energy storage system (BESS) is the latest in a pipeline of projects at sites in Dublin and Cork as part of a €300m technology investment by ESB.

Where is a new battery storage site in Northern Ireland?

The largest energy storage site in Northern Ireland is located at Drumkee, a townland in Killyman, Co Tyrone. A new battery storage site at this location has been commissioned and will be operational in the first quarter of the new year.

Where is ESB launching a battery energy storage system?

ESB has officially opened a 150MW (300MWh) battery energy storage system (BESS) at its Aghada site in County Cork, marking a major milestone in Ireland's renewable energy infrastructure.

What is ESB's first battery project in Ireland?

"This is ESB's first battery project in Ireland – this and four other battery projects now in development by ESB will deliver 300MW of battery capacity within the next two years. These projects will support the delivery of a stable and cleaner electricity grid, which is set to be powered by 80pc renewable generation by 2030," he added.
