

# Energy storage cabinet 9v battery output current

## Overview

---

The standard Duracell 9V battery has a current rating of 0.8 mA. This means it can provide up to 800 milliamps of current to your device. The heavy-duty version of this battery has a current rating of 1.2 mA, meaning it can provide up to 1200 milliamps of current.

## Energy storage cabinet 9v battery output current

---

### What is the current of the 9v lithium battery in the energy storage cabinet

It is important to note that the current output of a 9V battery can vary depending on the quality of the battery and the device being powered. However, on average, a 9V battery can provide a ...
