

European solar cell manufacturers

Overview

The EU Solar Manufacturing map gives an overview of solar manufacturing companies active along the solar PV chain. On this map, you'll find manufacturers spanning from polysilicon to module as well as the aggregate production capacities for each segment. Who are Europe's leading solar manufacturers?

In the following section, we provide an overview of 59 leading manufacturers, all of which are contributing significantly to Europe's renewable energy landscape. From established companies such as Primroot.com and HUAWEI to innovative newcomers, these manufacturers represent the cutting edge of solar technology.

How many solar panel manufacturers are there in Europe?

Europe is home to a large number of world-class solar panel manufacturers. In the following section, we provide an overview of 59 leading manufacturers, all of which are contributing significantly to Europe's renewable energy landscape.

How many companies in Europe manufacture solar PV modules?

Today, at least 38 companies are active in Europe manufacturing the equipment and machinery that produces vital steps of the solar PV module supply chain, including cells, ingots, wafers, and polysilicon. EU Clean Industrial Deal: Opportunity for renewables and European manufacturing.

Who makes the most solar panels in Europe?

In particular, it is the largest European brand of solar panels. By the end of 2015, REC had been able to produce around 20 million solar panels and about 5 GW of clean energy. That number is enough to power almost 8 million people at home.

Who are the best solar companies in Europe?

From established companies such as Primroot.com and HUAWEI to innovative newcomers, these manufacturers represent the cutting edge of solar technology. Their unique offerings and strategic location within Europe ensure a diverse, competitive market that benefits consumers throughout the continent and the world.

Are solar panels made in Europe certified?

All solar panels made in Europe are required to carry this certification. This certification, developed by the International Electrotechnical Commission (IEC), specifies test procedures to assess the performance of crystalline silicon terrestrial photovoltaic (PV) modules under natural sunlight.

European solar cell manufacturers

GaAs , Triple Junction GaAs Cells

Furi provides a wide range of GaAs products, including three-junction GaAs satellite cells, three-junction GaAs concentrator cells, small GaAs assemblies, small satellites, space solar cells, ...
