

Fant Solar Panels

Overview

Is Trina Solar a good solar company?

Where Trina Solar falls short is in the quality of its solar panels. The company's residential solar panels have a degradation rate ranging from 0.4% to 0.6%, with a decrease of 1% to 2.5% in the first year. This means that its panels perform more poorly than some of the solar panel companies that rose to the top of our list.
