

Finland tile solar rack

Overview

What is a solar racking system?

Solar racking systems involve mechanisms designed to withstand wind loads, distribute weight evenly and facilitate easy installation and maintenance. Tile roofs are often praised for their ability to distribute weight evenly. When mounting solar panels on them, this attribute ensures stability and longevity.

Can solar panels be mounted on a tile roof?

Tile roofs are often praised for their ability to distribute weight evenly. When mounting solar panels on them, this attribute ensures stability and longevity. Before taking any steps toward solar mounting, it's crucial to ensure your roof can withstand the added weight of solar panels. Consult a structural engineer for this crucial step.

Why should you install solar panels on a tile roof?

Solar mounts ensure that your investment stands the test of time, weather, and physical constraints. Tile roofs have been the epitome of elegance and aesthetic appeal in architecture for centuries. Adding solar panels to such roofs means combining modern technology with timeless beauty. Apart from aesthetics, tile roofs offer remarkable durability.

Why should you choose solar Finland?

Solar Finland and its subsidiaries with strong long-term background are experts in all aspects of solar energy. Our extensive know-how and experience of over 40 years make it possible to develop in different areas making our products and services competitive in the solar energy markets both domestically and abroad.

What is magerack solar?

Magerack provides solar mounting solutions that are easy to install, reliable at reduced installation time and lower cost for all roof types.

Are all solar mounts suitable for all types of tiles?

Not all solar mounts are suitable for all types of tiles. The compatibility of the mounts with the tile material is paramount for a successful installation. The tile type, angle, location make a great difference. These are the most commonly used mounts. They are simple, cost-effective, and easy to install but lack adjustability.
