

# First-class solar panels

## Overview

---

Who is first class solar?

First Class Solar Ltd is an Introducer Appointed Representative (Financial Services Register No. 996293) of Phoenix Financial Consultants Limited (Phoenix). Phoenix is a credit broker, not a lender. Phoenix is authorised and regulated by the Financial Conduct Authority (FRN: 539195), and offers finance from its panel of lenders.

Why should you choose first class solar?

First Class Solar is proud to offer a high-quality, long-lasting solar panel system that provides customers with 25 years of reliable performance. Our products are all rigorously tested to ensure that you receive the highest quality panels, manufactured for durability and longevity.

What does First Solar do?

Commercial and utility-scale PV projects are the main focus of First Solar. Aside from manufacturing PV modules for them, First Solar offers finance, construction, maintenance of solar projects and end-of-life panel recycling. The company is famous for using thin-film instead of more common monocrystalline solar panels.

Who is first solar?

First Solar projects global capacity exceeding 20GW by 2025. The company focuses on commercial and utility-scale projects. They're renowned for their advanced CadTel thin-film solar panels – a technology designed and developed entirely in the US.

Who makes first solar panels?

Get ready – here comes our First Solar panel review. Founded in 1999, First Solar is headquartered in Tempe, Arizona. They're renowned for their advanced solar panels designed and developed entirely in the US. First Solar

stands out as the sole US company among the world's 10 largest solar manufacturers.

How efficient are first solar panels?

Efficiency-wise, First Solar panels fall between 17.5% and 20%. While not the highest compared to silicon solar panels reaching 23% and beyond, these values are pretty good for thin-film solar panels. The company offers a comprehensive warranty on their panels for both product and performance.
