

French home energy storage

Overview

Is totalenergies the biggest battery storage project in France?

The energy major has 103MW of capacity market contracted energy storage online or coming online in France. Interestingly however, despite presiding over the single biggest project in the country, TotalEnergies sits second in Clean Horizon's chart of France's most prolific (publicly announced) battery storage project owners and developers.

What is the energy storage industry?

Energy Storage forms part of the Energy industry, which is the 15th most popular industry and market group. If you're interested in the Energy market, also check out the top Energy & Cleantech, Renewable Energy, Oil & Gas, Recycling or Energy Efficiency companies. All-in-one AI-powered energy solution for reliable operations.

Can energy storage be used as a virtual transmission asset?

Transmission operator RTE has already engaged in some trial activities through which storage is being deployed in continental France. One is Project Ringo, which gauges the effectiveness of energy storage as a virtual transmission asset.
