

Gambia Base Station Energy Management System Cost Price

Overview

How much does electricity cost in Gambia?

Gambia's reliance upon thermal generation has translated into high electricity costs. In 2011, the cost for small-scale domestic users, i.e. those consuming less than 40 kWh, was \$0.07. For mid-range users' consumers between 41-600 kWh, the price was \$0.24/kWh. For those consuming between 601 and 1000 kWh, the price was \$0.26/ kWh.

Does Gambia need to manage its energy use?

While these are not new issues, the need to manage Gambia's energy use and reduce its negative impacts has grown more immediate as our economy grows.

What are the challenges facing the electricity sub-sector in the Gambia?

The challenges facing the Electricity sub-sector in The Gambia include weak transmission and distribution network , high cost of power, low per capita power consumption, and low countrywide electricity access. According to Doing Business 2014, The Gambia is ranked 120 out of 189 economies on the ease of access to electricity.

What is the energy balance in the Gambia?

According to UNDP RIO + 20 Report (2010), the energy balance of The Gambia indicates that the biggest consumers are the households and the transport sectors; the balance has consistently shown increase in petroleum products for energy generation and transport.

Why is the Gambia becoming more energy efficient?

The Gambia is no exception. The trend towards increased mobility, urbanization and an integrated global economy will further accelerate our energy use and dependence. Increased energy use and mechanization comes with its own burdens with respect to cost, the environment, health, safety,

lifestyle and community.

What is the most abundant energy source in the Gambia?

Solar is without doubt the most abundant energy source. Indeed the solar resources have been measured to be as high as 6500Wh/m²d especially around May. The use of solar PV in The Gambia is well established although more incentives need to be initiated by government to speed up its uptake.
