

Georgia Bogota solar power generation for home use

Overview

Does Georgia Power offer solar?

From home installation and our buy back program, to non-installation options, our goal is to make solar an option for every Georgia Power customer. Learn more about our behind-the-meter solar programs, including the new Renewable and Nonrenewable Resources (RNR) program, and how to interconnect your system.

How much does a solar system cost in Georgia?

In Georgia, a typical residential solar system costs \$9,555 to \$27,300, depending on the size of your system and what financial incentives you qualify for. On average, it takes solar panels approximately 10 years to pay for themselves in Georgia. Over 25 years, Georgia homeowners with solar panels avoid \$57,429 in total utility costs on average.

Are solar panels a good investment in Georgia?

The main drawback is the high upfront cost of purchasing and installing the equipment. On the bright side, once that's paid for, solar panels can significantly reduce or even eliminate your electricity bills. For many Georgians, the long-term savings outweigh the upfront costs over time.

Do solar panels pay for themselves in Georgia?

Once you know your current energy consumption, you can calculate your potential savings and the time it should take for your solar installation to pay for itself. In Georgia, solar panels usually pay for themselves within 10 years.

3. Georgia solar incentives: federal and state.

How do I choose a solar power company in Georgia?

Look for a solar power company experienced in Georgia installations so that you have the most energy-efficient solar power system in place for your home. Many companies offer flexible financing options, including power

purchasing agreements (PPAs), to lighten the financial burden of solar panel installation.

Does Georgia have a solar incentive program?

Georgia does not have any statewide incentive programs but there are programs through local communities or utility companies that can help homeowners finance solar. These include the Central Georgia EMC Home Plus Loan Program and the Georgia Power Home Energy Improvement Program.
