

Georgia DC inverter manufacturer

Overview

What is DC-AC inverter Assembly?

In 2020, we added our DC-AC Inverter assembly division. We are excited to continue to grow this new sector of our business here in Jackson County, Georgia. DC-AC inverters convert DC electricity from the main battery into an alternate current (AC), enabling the use of household appliances within automobiles and other vehicles.

What is a DC-DC converter?

Beginning July of 2025, we will assemble the DC-DC converter. The DC-DC converter converts power from the high voltage battery, required to drive the electric vehicle, to a low 12 volts required to power the auxiliary battery, control ECU, navigation system, lights and other devices.

What are the benefits of using an inverter?

Inverters essentially enable an individual to power electronic devices and appliances away from a main power source (similar to a generator) – allowing drivers to be more efficient on and off the road. TICA is a good place to work. Benefits are amazing.

Who is TD Automotive Compressor Georgia?

TD Automotive Compressor Georgia (TACG) was established in 2004 as a joint venture between Toyota Industries North America Inc. and DENSO International America Inc. “TD” represents this relationship in our name: Toyota-Denso Automotive Compressor Georgia. TACG is a 943,000 square foot facility built on 150 acres of land in Jackson County, Georgia.
