

German small energy storage cabinet company

Overview

Why should you choose Benning energy storage solutions?

With BENNING ENERGY STORAGE Solutions, we offer modular systems tailored to your specific needs – from high-performance storage for e-mobility applications to hybrid UPS energy systems with integrated energy management. You get more than just standalone components like inverters or UPS systems.

Can German households buy or sell excess electricity?

German households can also buy or sell excess electricity on the company's new trading platform. Founded in Germany in 2009, SENEK develops and produces smart power storage systems and provides storage-based energy storage solutions to private households and small and medium-sized enterprises.

Can a Benning storage system be configured with or without ups?

All BENNING storage solutions can be configured with or without UPS functionality. The systems are modular and feature built-in redundancy. If a power module or battery string fails, the remaining components seamlessly take over the load.
