

# **Guatemala PV combiner box quotation**

## Overview

---

What is a 'combiner box' in a solar PV system?

A "Combiner Box" in the context of a solar PV system is to combine the output of several solar strings together. When a solar power system consists of more than one "string", each input string is connected to a fuse terminal.

Who is letop – a professional PV combiner box manufacturer?

As a professional PV combiner box manufacturer, LETOP has ten years of expertise in C&I solar sector, providing safe and reliable product solutions for system integrators and engineering companies. As PV generation technology rapidly advances, large-scale ground-mounted plants are evolving towards higher voltage and larger capacity.

How many string configurations can a combiner box support?

The combiner box supports a maximum of 24 string configurations, it is suitable for 1500V DC system voltages. It features industrial-level protection design, including string monitoring, RS485 bus/standard MODBUS-RTU protocol, arc fault detection, and fast shutdown/fireman switch functions.

## Guatemala PV combiner box quotation
