

Heishan Photovoltaic Charging Pile Energy Storage Project

Overview

The first phase of the project will be completed and put into operation in March 2024, equipped with a 108 kW rooftop photovoltaic power station, a 100 kW/200 kWh energy storage station system, one 60 kW dual-gun DC charging pile, and one 7 kW single-gun AC charging pile.

Heishan Photovoltaic Charging Pile Energy Storage Project

Dupu energy storage charging pile

The building charging pile is a control method for clustering EVs, and its energy management function can be utilized to achieve a reasonable distribution for the charging and discharging
